# Breath Alcohol Measuring Instrument

IMPA CODE  
**331221**

Jinbo Marine supplies IMPA marine stores and ship equipment for global marine and offshore customers.

Key Product Information			
<b>IMPA</b>	331221	<b>Product Name</b>	Breath Alcohol Measuring Instrument
<b>Specification</b>	Sampling Time:4s-12s,Minimum Flow:Approx. 6ltr/min.,Warm-up-time:30s,Size:L230xW70xH34mm,Weight:500gm,Battery:Nicd rechargeable battery 1.2voltX3pcs	<b>Unit</b>	
<b>Category</b>	33 - Safety Equipment	<b>Origin</b>	China

**Description**

An instrument suited for the quick on the spot measurement of breath alcohol levels. Quickly and accurately measured by an electromechanical method where the alcohol molecules of an exactly defined sample react in the sensor system. The microprocessor e
