CONTENTS

- China 350Tons Steel Wire Rope Press Machine:
- Main Specification

China 350Tons Steel Wire Rope Press Machine:

Steel Wire Rope Press Machine is Hydraulic Wire Rope Swage Machine, used to make pressed wire rope sling, with feature of compact form, good-looking appearance and easy operation. Widely used at mine, metallurgy, wharf, railway, electrics and other filed.

- It uses a mechanical and electrical design, to switch to a different mold, you can suppress the different specifications of wire rope, easy to operate and safe.
- Dual control for hydraulic system, the overflow valve, magnetic contact on the pressure gauge can be accurately controlled.
- Electric control parts of the low-voltage control, an increase of operating system security.
- Pull the rope to suppress large, beautiful, fast, and a wire rope press-fit just a few minutes to complete, significantly reduced the labor intensity and improve the work efficiency.

Main Specification

press power (KN)	**3500**

Max wire rope diameter in one pressing (mm)	Φ26
Max wire rope diameter in multi-pressing (mm)	Φ34
Power (KW)	4
Max working pressure (Mpa)	58Mpa
Max piston movement (mm)	80
The up speed of piston (mm/sec)	4.5
The down speed of piston (mm/sec)	Max 4.5
Total length (mm)	1200
Total width (mm)	650
Total height (mm)	1400
Net weight (kg)	1000
