430 Injector Test Bench Pneumatic Hydraulic Pump

430 Injector test bench had injector test bench for B&W, SUL ZER, MAN and G0 taverken models, such as fuel injector test at low speed,As coastal passenger-cargo ship, ocean ship

the necessary test equipment. The test also can be adjusted with the aid of some accessories cylinder head valve,Opening pressure and injection nut disassembling.

This test-bed is mainly composed of enclosure, manual high pressure oil pump assembly, pressure gauges and other components. At present, the match on medium speed machine injection, Trap specific and can be applied to NVD, 300, 350, etc.

Series of fuel injector test.

Technical data

Name of parts	Strycture character parameter overall	
Box body kits	Overall dimension (mm2)	350*500*1085
High pressure oil pump unit assembly	ϕ plunger rated pressure value (kg/cm2)	1600
Hand oil pump	Rated pressure value (kg/cm2)	600

Jack unit assembly	Piston diameter(mm)	φ28.5
	Piston stroke(mm)	120
	Working pressure of oil cylinder (kg/cm ²)	600
	Max stroke (mm)	133
	Max with stand weight(t)	5
130kg	Packing Size	880x880x1320
