## STEEL WIRE ROPE

# 500Tons Steel Wire Rope Press Machine

ISO9001 Supplier

Class Certificate

Export Supply

500Ton Steel Wire Rope Press Machine is Hydraulic Wire Rope Swage Machine, used to make pressed wire rope sling, with feature of compact form, good-looking appearance and easy operation. Widely used at mine, metallurgy, ...

### Key Highlights

Category	Steel Wire Rope
Standard	EN
Material	500Ton Steel Wire Rope Press Machine is Hydraulic Wire Rope Swage Machin...
Weight / Size	Technical Specification Max press power (KN) 5000 Max wire rope diameter...
Certificate	CE

We can supply according to your requirement, drawings, class certificate needs, and delivery schedule.

Technical Specifications			
Category	Steel Wire Rope	Model / SKU	500Tons-Steel-Wire-Rope-Press-Machine
Standard	EN	Material	500Ton Steel Wire Rope Press Machine is Hydraulic Wire Rope Swage Machine, used to make pressed wire rope sling, with feature of compact form, good-looking appearance and easy operation.
Weight / Size	Technical Specification Max press power (KN) 5000 Max wire rope diameter in one pressing (mm) $\Phi$ 32 Max wire rope diameter in multi-pressing (mm) $\Phi$ 42 Power (KW) 7.5 Max working pressure (Mpa) 56Mpa Max piston movement (mm) 120 The up speed of piston(mm/sec) 4.5 The down speed of piston(mm/sec) 8 Total length (mm) 1550 Total width (mm) 650 Total height (mm) 1600 Net weight (kg) 2500	Certificate	CE

**CONTENTS**

- China 500Tons Steel Wire Rope Press Machine:

- Technical Specification

## China 500Tons Steel Wire Rope Press Machine:

500Ton Steel Wire Rope Press Machine is Hydraulic Wire Rope Swage Machine, used to make pressed wire rope sling, with feature of compact form, good-looking appearance and easy operation. Widely used at mine, metallurgy, wharf, railway, electrics and other filed.

- It uses a mechanical and electrical design, to switch to a different mold, you can suppress the different specifications of wire rope, easy to operate and safe.
- Dual control for hydraulic system, the overflow valve, magnetic contact on the pressure gauge can be accurately controlled.
- Electric control parts of the low-voltage control, an increase of operating system security.
- Pull the rope to suppress large, beautiful, fast, and a wire rope press-fit just a few minutes to complete, significantly reduced the labor intensity and improve the work efficiency.

## Technical Specification

Max press power (KN)	5000
----------------------	------

0.046515s

Max wire rope diameter in one pressing (mm)	Φ32
Max wire rope diameter in multi-pressing (mm)	Φ42
Power (KW)	7.5
Max working pressure (Mpa)	56Mpa
Max piston movement (mm)	120
The up speed of piston(mm/sec)	4.5
The down speed of piston(mm/sec)	8
Total length (mm)	1550
Total width (mm)	650
Total height (mm)	1600
Net weight (kg)	2500
