China 6 Strand Synthetic Fiber Rope:

The ropes are made of polyamide multifilament, polypropylene filament, polypropylene, polyester.

Advantage

Low Weight, high strength, low elongation, wearing and erosion resisting, anti-static electricity, smooth and safe and easy operation.

Application

used in the ocean transportation, fishing, harvesting, harbor loading & unloading, petroleum field.

Main Specification

Size: 28mm-80mm(Dia)

Material: polyamide multifilament, polypropylene filament, polypropylene, polyester
