Origin	China		

Application

Aluminium Boat is fully welded boat offering several unique advantages like stability, durability, high impact resistance and abrasion resistance. This boat also has an excellent high speed riding feature with a high load capacity. Due to the welded construction of these boats, it makes the hull extremely strong, making it suitable for users like professional divers, diving schools and even fishermen. The boat also helps fire brigades get into hard to maneuver areas along rivers and lakes to fight fires.
