China Anti-Static Rubber Sheet:

Specification: 1 ~ 80mm x 500 ~ 3000mm.

The anti-static rubber sheet suitable for different conditions, different environment. Pave the way for the main desktop,pipeline table, shelf.

Surface material is grass green,blue,gray. Conductive material is antistatic agent, the bottom is lack, conductive material is graphitized carbon black. The surface green color layer have good scratch resistance property, and have better flame retardant property than equivalent material on the market.

Our permanent antistatic rubber sheet overcome the current conventional product problem, when the service life increased, the surface electrical resistivity increased accordingly. It can makesure the product surface have permanent antistatic property.
