■ The key benefits:

China Aramid Fiber Rope:

Aramid fiber rope is manmade fiber with high performance. it has very stable high strength and heat resisting feature. Light weight and highly flexible ,it has excellent mechanical strength. Good chemical and mildew resistance, anti-acid and anti-alkali.

The structure include 3-ply,6-ply, 8-ply, 12-ply,16-ply and 32-ply and double-layer braided. with the diameters ranging between 3mm and 246mm for your option. It is polymerized, spun and drawn by special technology thus to make it's solid chain rings and chains to be compounded in a whole therefore it has very stable high strength and heat resisting feature.

Mainly used for Hanging rope, suspension rope, ships and vessels, military industrial ropes/Suitable for operation under low and high temperature, various types of slings, suspension, military research and other fields.

The key benefits:

1. Good heat stability, Long-term dimensional stability
2. High breaking strength
3. Classificate: ABS, CCS, BV, DNV, LR etc can be provide.
4. Material: high performance Aramid fiber yarns

Size	Any size on customers' request, The main specification is between 3mm and 146mm for your option.
Color	Red, green, yellow, pink, black almost 30 colors for selection etc, or on customers' request.
Accessories	Metal Clip, Metal Harb , plastic hook, metal buckle, plastic buckle ect. , can be made on customers' request.
