Main Technical Parameter

Model:BC-350W
Electric system: AC220 50/6Hz
Power: 0.5kw
Storage temperature: 5~10℃
Volume(L): 350
Dimension: 1500x650x850

Structure Feature

Refrigerator adopts famous brand compressor, high-efficiency condensation unit group, it has advantages of beautiful profile, easy to maintain and repair, etc. the box is equally adopting high-density horniness polyurethane foam, with good heat preservation performance and energy-saving. the refrigeration pipeline in the box is wholly adopting superior quality of red copper pipe, with long longevity of using. the refrigerator adopt digital micro-computer thermometer (here is thermometer for short) with feature of reliable performance and real time of temperature display.the starup delay time of the compressor for refrigerator can be adjusted in 0-240 minutes.
