DYJ-16C Marine Bean Sprout Machine

1. Fully intelligent computer digital display to control temperature and watering time, automatic control of water temperature, automatic control of watering time
2. Drawer-type bean sprouts production box is adopted, which is reasonable in design and convenient to use
3. The cabinet is fully insulated with interlayer insulation, and the water tank is built-in, saving water and energy by 60%
4. The whole machine is made of stainless steel, the inner tank is stainless steel plate, and the stainless steel bracket is durable.
5. The production box is placed in separate compartments, suitable for batch cycle production, easy to disinfect and clean
6. Equipped with stainless steel adjustable feet for easy installation on board
