We can supply according to your requirement, drawings, class certificate needs, and delivery schedule.

Technical Specifications

Category	Electric Heater	**Model / SKU**	FS-30-Automatic-Electric-Water-Boiler
Standard	DIN	**Material**	Stainless steel 304
Weight / Size	Model:FS-30 External dimensions(L×B×H):350×240×645mm Rated input voltage:According to user's requirements, the equipment is available for such power supply as single-phase 220V, 380V, 440V and special voltages.	**Certificate**	ABS, LR, BV, DNVGL, NK, KR, IRS, RMRS, CCS
Warranty	12 Months unless specified otherwise	**Origin**	China

FS-30 Automatic Electric Water Boiler:

Model:FS-30

External dimensions(L×B×H):350×240×645mm

Rated input voltage:According to user's requirements, the equipment is available for such power supply as single-phase 220V, 380V, 440V and special voltages.

Rated input power：3kW。 Capacity:30L.

Application:

FS series boiler is an automatic electric water boiler used to heat water to boiling point for drinking and can arbitrarily control the temperature within the range of 30~100℃. It can be widely used for such locations as various types of ships, hotels, hospitals, laboratories, various types of vehicles and mobile houses, etc. It is an ideal equipment for supply of boiled water at unattended locations.
