<b>Category</b>	Marine Engine Telegraph System								
<b>Standard</b>	DIN								
<b>Certificate</b>	ABS, LR, BV, DNVGL, NK, KR, IRS, RMRS, CCS								
We can supply according to your requirement, drawings, class certificate needs, and delivery schedule.									

Technical Specifications			
<b>Category</b>	Marine Engine Telegraph System	<b>Model / SKU</b>	GCAB-1-MAIN-PROPULSION-UNIT-SSAS-SYSTEM
<b>Standard</b>	DIN	<b>Certificate</b>	ABS, LR, BV, DNVGL, NK, KR, IRS, RMRS, CCS
<b>Warranty</b>	12 Months unless specified otherwise	<b>Origin</b>	China

## GCAB-1 MAIN PROPULSION UNIT SSAS SYSTEM

The GCAB-1 main propulsion safety protection system is mainly used for the safety protection of the diesel engine in the main propulsion system. This system is independent of other systems. When a fault occurs in the main propulsion system and affects the safe operation of the main engine, this system outputs corresponding control signals to control the diesel engine to slow down or stop based on the level of the fault. The system has self-test and sensor disconnection detection functions.
