China Highlander 6222 VHF DSC:

Highlander 6222 VHF provides flexibility through straightforward installation, either as part of a GMDSS console or on its own. As a result of improved,high performance and innovative, easy to use funcionality the radio offers important operational enhancements. It introduces several new hardware and software improvements, including the improved highlander replay functionality. The highly advanced 3.2" QVA display ensures the information can be read regardless

of the light conditions on the bridge-day or night. The text can be displayed as white on black background, and as black on white brackground, to provide the optimal reading condition in daylight. Red backlight protects the night vision of the user.

Unique highlander replay(240 seconds)of incoming communication.

High quality display-perfect night and day vision.

Powerful 6W loudspeaker.

Intuitive and easy to operate menu structure.

Large tactile buttons and wheelknobs for easy operatioin.

The popular highlander handset.

ThraneLINK.

The highlander 6222 VHF is the first ever EDS class A to be rated waterproof to IPx6 and IPx8, making it possible to install on open workboats or outside deck areas.

Highlander 6222 VHF complies with DSCspec.493-13 for VHF DSC Class A,which is part of the mandatory requriements for SOLAS vessels, and many national GMDSS requirements. In addition to its role as part of GMDSS it is one of the most advanced,high quality and powerful VHF radios available today. It is very well suited to a widre variety of maritime operational communications on board fishing vessmerchant ,offshore ships and workboats.
