

MARINE OIL WATER SEPERATOR

Marine CY-2A 15ppm Bilge Alarm System

ISO9001 Supplier

Class Certificate

Export Supply

CY-2A 15ppm Bilge Alarm System: CY-2A 15ppm bilge alarm system is a new-type instrument for monitoring micro-oil content in waste water and has many new functions, like real time monitor flow, SD card storage, LCD ...

Key Highlights

Category	Marine Oil Water Seperator
Standard	DIN
Weight / Size	Small in size, light in weight, convenient for installation.
Certificate	ABS, LR, BV, DNVGL, NK, KR, IRS, RMRS, CCS

We can supply according to your requirement, drawings, class certificate needs, and delivery schedule.

Technical Specifications

Category	Marine Oil Water Seperator	Model / SKU	Marine-CY-2A-15ppm-Bilge-Alarm-System
Standard	DIN	Weight / Size	Small in size, light in weight, convenient for installation.
Certificate	ABS, LR, BV, DNVGL, NK, KR, IRS, RMRS, CCS	Warranty	12 Months unless specified otherwise
Origin	China		

CONTENTS

- CY-2A 15ppm Bilge Alarm System:

- Characteristic:

CY-2A 15ppm Bilge Alarm System:

CY-2A 15ppm bilge alarm system is a new-type instrument for monitoring micro-oil content in waste water and has many new functions, like real time monitor flow, SD card storage, LCD screen display, etc. It's suitable for continuous monitoring of the oily water discharge in the bilge, with a 15 overrun alarm system and a controlling system for waste

water discharge. In most case, it applied as a matching device for oil water separator. CY-2A can also be used in oilfield, chemical industry, etc.

The instrument has passed CCS (Certificate of Type Approval) Certification, and meets relevant specification requirements of **IMO.RES.MEPC.107(49)**.

Characteristic:

The whole machine use modularization design, stable performance, convenient for installation and maintenance.

Add flow monitor function.(according to MEPC10749 resolution)

LCD display, content diversity; interface intuitive, more humanized.

Using SD card (2 GB) storage technology, solve storage capacity limited, more humanized.

The machine with RS232 gorge line communication connector. It's convenient for transmission data with computer.

4-mA current output connector.

The machine has storage data query function.

The machine has two print way: current print and history print, the output of data could be more intuitive and clear.

The machine with auto-clean function.

Small in size, light in weight, convenient for installation.
