Key Highlights

Category	Lifeboat Davit
Standard	EN
Certificate	CCS

We can supply according to your requirement, drawings, class certificate needs, and delivery schedule.

Technical Specifications

Category	Lifeboat Davit	Model / SKU	NXQ-Serie-Blader-Accumulator
Standard	EN	Certificate	CCS
Warranty	12 Months unless specified otherwise	Origin	China

China NXQ Serie Blader Accumulator:

NXQ Serie Blader Accumulator

It is an important component in a hydraulic drive system. Its function is storing energy, stabizing pressure, reducing power consumption. The accumulator is divided in two parts, nitrogen filled inside and hydraulic oil filled outside. When the oil is pressed into a accumulator by means of a hydraulic pump. The bladder will be deformed and the gas volume will be decreased as the pressure increase. At this time, the oil is stored gradually. If the hydraulic system needs to increase the oil for work, it will drain the oil out and compensate the energy of the system.

Model Number: NxQ2-F40/31.5-H

Use for single arm life raft davit.
