Origin	China		

Chongqing Jinbo Marine Equipment Import & Export Co., Ltd, the most powerful Chinese marine equipment supplier. We implementing the one-stop service, all marine equipment are available. From sales, R&D, quality control and after-sales service, each procedure was strictly controlled by professional technician.

In this article, we mainly introduce the basic and essential facilities: Marine mooring equipment. Including marine chock, marine chain stopper, marine fairlead, marine warping roller, marine bollard, marine fender, marine towing hook, marine mooring rope and other marine mooring items. We have advanced machine to produce these items, the main equipment and facilities have 500 ton hydraulic press machine, NC cutting machine, plasma cutting machine, Z50 drilling machine, lathe, plate bending machine, etc. These machine enhanced the work efficiency, produce good quality product.

Let me introduce the cast items first, like marine chock, marine chain stopper and warping roller, they have some common point, the material mainly adopt cast iron or cast steel. It means all these product need to be produce by a casting factory. Many factory don't have, this is our advantages, we have our own casting factory, this advantages can guarantee our product have competitive price, reliable quality and fast delivery time.

For these items, we supply various standards: JIS standard, DIN standards stanrdard, EU standard, Chinese standard, Korean standard all available, even Nonstandard product. Because these products can be customized according to your specific needs.

Then go back to the marine bollard which is commonly install on dock or vessel.

The dock bollard have many different types, like Tee head type, staghorn type, R type, Kidney type. These types mainly adopt cast iron or cast steel material.

When it comes to this place, you may ask me, why we have saw some welded steel plate bollard on vessel? yes, marine bollard not only have cast dock bollard, but also have welded steel plate bollard, cruciform bollard, double bollard, stainless steel bollard etc., Most bollard which install on vessel is welded steel plate bollard. All these bollard is used for mooring of all kinds of vessels.

Various marine ropes can be supply by us, include nylon rope, polypropylene rope, polyester rope, dyneema ropes, aramid rope and other natural fiber ropes.

Synthetic fiber ropes, particularly nylon and polypropylene have greater strength, and they have good properties when clean and drip rope is the choice of many customers.

We also specializes in production of container lashing and fastener items, the product include flush socket, dovetail plates, dovetail foundations, lashing bar, container corner, raised socket, double plate,turnbuckle,lashing rod,twistlock,stacker,bridge fitting,D ring, eye plate, bridge fitting…more than sixty kinds of lashing products. Most container items have been approved by GL,

These container items is standard products, and customers usually need this item in urgent, in order to satisfy customer's requirement, we prepared enough stocks. No matter when you need it, just contact us, we can provide it.

Regarding to our mooring equipment, we can provide LR certificate, BV certificate, DNV certificate, GL certificate, ABS certificate. Upon the request of different customer, Marine bollard is an exception, most customer only require a mill certificate,

Nowadays, our mooring equipment have been exported to South America, West Asia, Southest Asia, Austrailia, Europe, Africa, Middle East as well as domestic shipyards. Our product obtained a good reputation in foreign countries. If you have requirement, please contact me at once, we will serve you wholehearteddly.
