- Features:

Portable oil tank

Portable oil tank is used as temporary storage facility in shore or on deck. With big capacity and small space coverage after being folded, it can be rapidly deployed. Portable oil tank is made of PVC nylon fabrics or heavy-duty special rubber coated with oil-resistant and wear-resistant layers, thus it has a tough tensile strength and easy to clean up.

Features:

- Applicable as temporary oil or liquid storage device, as well as gravity separator.
- Easy to clean, repair, portable, can be packed in box when dismantled.
- Convenient upload and download, needless for tools or flat floor with its mental frame.
- Oil-resistant rubber layer or strengthened double-layer fabric coated with corrosion-resistant layer has a long service life.
