Product Features

This power supply is carefully designed for the use of various high-frequency walkie talkies and radio communication stations. It uses mature and reliable electronic circuits, and the main components are made of imported materials. It has good voltage stability, small ripple coefficient, short circuit protection, overvoltage protection, good product technology, and easy maintenance. It is an ideal power supply for high-frequency communication machines.

Technical data:

- ① Model: QJ-1806A
- ② Output voltage: DC13.8V±0.5V Ripple voltage:<15mV
- ③ Voltage regulation rate:<1.5% Output current: 6-8A
- ④ Input voltage: AC220V DC21V-32V Overvoltage protection: 16V±0.5V
- ⑤ Product size: 140mm (width) * 250mm (length) * 110mm (height)
