MONITORING AND ALARMING DEVICE

RDFD-100 Point Type Ultraviolet Flame Detector

ISO9001 Supplier

Class Certificate

Export Supply

RDFD-100 Point Type Ultraviolet Flame Detector (hereinafter referred to as detector) is an UV-light sensitive fire detector. It detects the fire from the UV-light produced by burning of materials, so that it is suitable ...

Key Highlights

Category	Monitoring And Alarming Device
Standard	EN
Material	It detects the fire from the UV-light produced by burning of materials, ...
Certificate	ABS, LR, BV, DNVGL, NK, KR, IRS, RMRS, CCS

We can supply according to your requirement, drawings, class certificate needs, and delivery schedule.

Technical Specifications

Category	Monitoring And Alarming Device	**Model / SKU**	RDFD-100-Point-Type-Ultraviolet-Flame-Detector
Standard	EN	**Material**	It detects the fire from the UV-light produced by burning of materials, so that it is suitable in the places where the visual fire will be easy produced when the fire arises.
Certificate	ABS, LR, BV, DNVGL, NK, KR, IRS, RMRS, CCS	**Warranty**	12 Months unless specified otherwise
Origin	China		

China RDFD-100 Point Type Ultraviolet Flame Detector:

RDFD-100 Point Type Ultraviolet Flame Detector (hereinafter referred to as detector) is an UV-light sensitive fire detector. It detects the fire from the UV-light produced by burning of materials, so that it is suitable in the places where the visual fire will be easy produced when the fire arises. This detector can be used in the locations where the strong

flame exposure exists or the quick response has to be made when fire, the detector sends out a fire alarm signal and inputs to a fire-extinguishing system.
