China SJ Series Portable Oil Purifier:

SJ series portable oil filter:

SJ series portable filter is widely used in workshops, maintenance, power plants, power plants, oil depots, factories and mines, aviation, chemical, laboratory, etc.. Suitable for oil, mechanical oil, hydraulic oil, lubricating oil, compressor oil, turbine oil, insulating oil, diesel oil, kerosene, vegetable oil, beverage, etc.

Technical features:

Portable filters are used in the transmission of insulating oil, lubricating oil, all kinds of mineral oil and other liquids, and the filtration of mechanical impurities. The machine adopts micro element manufacture, compact structure, light and flexible, convenient carrying, low price, for a little oil, such as machine tools, vehicles, fuel tank, oil switch, transformer, oil, oil filling pipe and filter impurities, compared with other large oil filtering equipment is more economical and practical. Because it does not need to change the filter paper, it is more convenient and easy to use, so that the operator will feel relaxed and happy.
