Sewage ultraviolet sterilizer:

Sewage ultraviolet sterilizer, ultraviolet sterilizer for UVS series of ship manufacturing, according to the latest global design of UV disinfection technology, can effectively kill various bacteria in the sewage, so as to meet the requirements of sewage bacteria. UVS series UV sterilizer is an ideal product for ship and offshore platform. It has the advantages of compact structure, low power consumption, high durability and less maintenance.

Function:

1. Stainless steel structure, main sterilization system, long life.

2.With manual or automatic online cleaning device, remove the manual disassembly maintenance.

3. UV intensity and real-time monitoring of each lamp operation, intuitive operating system, easy to use.

The product complies with the requirements of DNV, LR, GL, ABS, BV, NK CCS for the main classification societies.
