Weight / Size	according to the quantity and size.	**Certificate**	ABS, BV, DNV, GL, LR,NK, RINA,KR, CCS
Warranty	12 Months unless specified otherwise	**Origin**	China

China Stern tube:

The stern tube, as the name suggests, is a hollow tube-like structure at the stern or rear part of the ship. A ship needs a propeller to drive it forward against the waves. The propeller, located outside the ship, needs to be connected to the engine inside the ship’s engine room.

Stern tube is a part of shafting assembly .Fixed to the end of the hull,the axis passes through and fitted to the pipe section of theseal and the support means.
