SHOT BLASTING MACHINE

Suspension Type Shot Blasting Machine

ISO9001 Supplier

Class Certificate

Export Supply

Shot blasting machine make the workpieces surface show metal color, eliminate the internal stress of workpiece, improve the fatigue resistance, increase the film adhesion when painting, and ultimately achieve the goal of...

Key Highlights

Category	Shot Blasting Machine
Standard	EN
Material	And improve the corrosion resistance and mechanical products and metal m...
Certificate	ABS, LR, BV, DNVGL, NK, KR, IRS, RMRS, CCS

We can supply according to your requirement, drawings, class certificate needs, and delivery schedule.

Technical Specifications			
Category	Shot Blasting Machine	**Model / SKU**	Suspension-Type-Shot-Blasting-Machine
Standard	EN	**Material**	And improve the corrosion resistance and mechanical products and metal materials for improving steel fatigue resistance performance, prolong the service life,Process optimization of steel surface state, achieve the goal of completely clean.
Surface	Shot blasting machine make the workpieces surface show metal color, eliminate the internal stress of workpiece, improve the fatigue resistance, increase the film adhesion when painting, and ultimately achieve the goal of improve the quality of workpiece surface and internal.	**Certificate**	ABS, LR, BV, DNVGL, NK, KR, IRS, RMRS, CCS
Warranty	12 Months unless specified otherwise	**Origin**	China

China Suspension Type Shot Blasting Machine:

Shot blasting machine make the workpieces surface show metal color, eliminate the internal stress of workpiece, improve the fatigue resistance, increase the film adhesion when painting, and ultimately achieve the goal of improve the quality of workpiece surface and internal. And improve the corrosion resistance and mechanical products and metal materials for improving steel fatigue resistance performance, prolong the service life,Process optimization of steel surface state, achieve the goal of completely clean.

This machine is suitable for many varieties, small batch cast iron pieces, steel castings, forgings and steel structure surface cleaning and surface peening, such as engine cylinder cover, motor shell cleaning efficiency is a plus. Are cars, tractors, choice of diesel engine, motor, valve, etc.
