China TEK-1 Plastic Water Level Controller:

TEK-1 float switch is a great way to automatically turn any appliance such as a pump, on or off. A ball inside the tethered float switch simply changes position from top to bottom with the rising or falling motion it changes the floats angle, thus breaking or establishing the electrical circuit to turn the pump on or off. Level Float Switch used to control the water level. Our level float switch used widely on the pump and water tank. We use color packing for our float switch. We check the float switch packing and quality strictly before delivery.

Specification:

Rated current	5(2.5A) ~2(1A)
Rated voltage	250V~380V
Power rating	1KW
Working temperature	-10°C~60°C(Plastic) -10°C~150°C(Stainless Steel)
Scope of control	≥0.2m
Working life	≥100000
Length	1M, 3M, 4M, 10M (Length can also be custom-made to suit your own requirements.)
