Category	Mooring Rope	Model / SKU	Winch-Rope
Standard	DIN	Material	UHMWPE.
Certificate	CCS,LR,NK,DNV,ABS,BV etc.	Warranty	12 Months unless specified otherwise
Origin	China		

Product Description:

The polyethylene fiber with high performance(Dyneema) has the highest strength in the world, which has the strength 15 times higher than the steel wire. It also has very low enlongation and its breakage enlongation rate can be compared with that of steel wire. Ropes made of it have advantages to resist UV radiation, seawater, acid and alkaline, fatigue and temperature difference and can prolong its service life.

With its super-high strength and quality performance, the polyethylene fiber with high performance(Dyneema) has become the first choice for special industries.

The products are mainly used in fields of national defense, military industry, special ships and vessels, sea petroleum, ocean transportation ect.

We produce different specification dyneema ropes according to your demand. The main specification is between 1mm and 100mm for your option.

Please let us know your needed rope diameter,quantity when you send inquiry to us.
