Technical Specifications			
Category	Chain Sling	**Model / SKU**	YDS-Swivel-Hoist-Ring-With-Metric-Thread
Standard	DIN	**Material**	2.High Strength The bolts are made of alloy steel 42CrMo, the tensile strength before heat treatment is 1080Mpa, the mechanical properties are improved after the material is changed, the rotating base is a one-piece design and is forged as a whole for higher strength.
Weight / Size	5.Complete specifications The thread specifications are complete, the rated load range is wide (M8-M100, 0.5T-50T), and the thread size can be customized according to customer requirements.	**Certificate**	ABS, LR, BV, DNVGL, NK, KR, IRS, RMRS, CCS
Warranty	12 Months unless specified otherwise	**Origin**	China

YDS Swivel Hoist Ring With Metric Thread

1.360° rotation, 180° flip
The lifting ring can rotate with the direction of the force to adjust the angle of the force.
2.High Strength
The bolts are made of alloy steel 42CrMo, the tensile strength before heat treatment is 1080Mpa, the mechanical properties are improved after the material is changed, the rotating base is a one-piece design and is forged as a whole for higher strength.
3.4 times safety factor
Different loads can be lifted in different directions, but 4 times safety factor is guaranteed
4.Easy to install
The bolt has a hexagonal design, and the lifting point can be easily installed on the object to be lifted by a wrench.
5.Complete specifications
The thread specifications are complete, the rated load range is wide (M8-M100, 0.5T-50T), and the thread size can be customized according to customer requirements.
