Product Description:

This set of lifesaving appliance is a special equipment intended for shipboard launching and recovering a lifeboat (launching the lifeboat from the vessel to sea level as well as recover the lifeboat to original stowed position from sea level), which could launch the lifeboat to outboard position depending on electricity or accumulator (Not necessary for ship to supply power) under condition of a trim of up to 10 degree and a list of up to 20 degree, then safely launching the lifeboat depending on itself gravity. Its performance conforms to the requirements of the Amendments to SOLAS 1974-MSC.47(66) , International LSA Code MSC.48(66), IMO Resolution MSC81(70) and MSC.216(82),MSC.218(82) and MSC.226(82).

Technical Parameter:

Model	Max. Safety working load	Max. Hoisting load
SRH125	125KN	60KN
SRH210	210KN	90KN
