China Diving Breathing High Pressure Air Compressor LYW500:

LYX500 high pressure air compressor is silent and stationary compressor for breathing in diving, firefighting industry. It compresses free air to 30Mpa and removes oil, vapor and other contaminants by filters and separators. Noise is very small. It is safe and reliable source of pure air. The air quality accords to EN international breathing compressed air quality.

Features

- Air-cooling piston reciprocating
- Oil splash lubrication
- Copper pipe inter-cooler and after cooler
- Specially treated alloy cylinder, piston and piston ring
- High-strength nylon cooling fan assembly
- Intake filter
- Anti-shock floor mat

Manual condensate drain knob
Filling hose and filling valve
Safety valves protection for every stage
High temperature resistance plastic powder coating steel frame and base
Activated carbon, monocular sieve for air purification in the filter
Consumables and manuals are provided with every compressor
The warranty period is 1 years
