EB Series Yatch Windlass

Features

1.Designed for automatic horizontal handling of chain only anchor rodes while offering an independent capstan for the retrieval of a secondary rope and chain rode or toassit with docking procedures.

2.Fully automatic single dual direction chain-wheel operation.

3.Optional dual anchor handling with smooth independent control of each chain-wheel via cone clutches.

4. Simple deck mounted installation with no under deck parts.

5.Simplified maintenance with ability to strip the running gear (chain-wheel and drum) from the windlass without disturbing the windlass mounting.

6.Heavy duty, dual direction motor, designed for marine winches.

7.Marine-grade alloy casting pretreated, powder coated and finished with a two component white polyurethane paint.

8.Fit include hand-switch, control box and wrench.
