ITMH Series Hydraulic Motor

ITMH high pressure and high speed hydraulic motors are optimized and improved on the basis of ITM series hydraulic motors. Multiple valve sets are integrated inside, and the key friction pairs of the motors are also redesigned to improve the comprehensive performance and reliability of the motors.

- The rated working pressure is 21Mpa, which is increased by 25%;
- The rated speed is increased by 10%;
- The rated power is increased by more than 10%;
- Reliability and service life have been improved;

ITMH Series Hydraulic Motor Parameters

Theoretical Displacement	Rated Pressure	Max Pressure	Rated Torque	Max RPM	Max Power
77-2034 ml/r	21MPa	23 MPa	189-6321 N.m	200-500 r/min	7-88 Kw
