Product model: QJH150PACAMB-25-150

Product Features:

This product is suitable for ship mooring, lifting and pulling heavy objects in offshore platforms and engineering fields.

The main technical features are as follows:

a. Manual brake: During the use of the winch, the brake system is equipped with a hand-pressed brake and a hand-cranked brake.

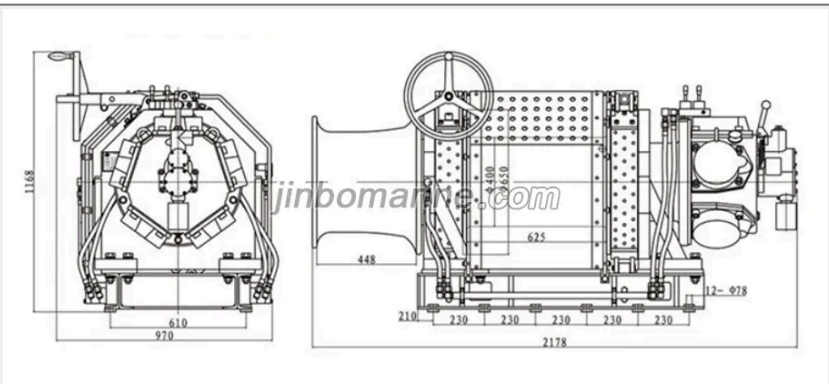

b. Convenient operation: The winch control valve and air motor are combined design, only one control handle can control the speed, forward and reverse rotation of the winch at the same time.

c. Pneumatic clutch device: By operating the hand-pull valve, several operating states such as separate, synchronous, and complete disengagement of the drum and the anchor rope reel can be controlled.

Technical parameters

Model	QJH150PACAMB-25-150
Work pressure	0.6-0.9Mpa
Rated tension	150KN
Retracting and unwinding speed	6m/min
Wire rope diameter	25mm
Reel rope capacity	150m
Dimensions	2178*970*1168mm
Winch weight	2600kg

Outline drawing

Remarks: This series of pneumatic winches can be customized according to the actual needs of customers.
