China Portable Electric Heater:

It is used for heating and drying of damped objectes with an excellent heating effect with high speed.The product is an ideal dryer with temperature is automatically controlled,small in size,easy to move,thus making it suitable for ships,generators of power plants,electrical motors and switchboards etc.

Specification:

Voltage:3 phase AC380V-440V

Frequency:50~60HZ

Motor power:85W

Heating power:3~6KW

Isolating strength:2000V/min

Isolating resistance:equal or greater than 14MΩ

Model number:NF-1 type.
