ISO9001 Supplier

Class Certificate

Export Supply

Key Highlights

Category	Marine Propeller
Standard	GB
Material	Cu1, Cu2, Cu3, Cu4, etc.
Certificate	ABS , BV, DNV , LR , GL , CCS, RINA , mill certificate etc.

We can supply according to your requirement, drawings, class certificate needs, and delivery schedule.

Technical Specifications

Category	Marine Propeller	Model / SKU	Shell-shape-propeller
Standard	GB	Material	Cu1, Cu2, Cu3, Cu4, etc.
Certificate	ABS , BV, DNV , LR , GL , CCS, RINA , mill certificate etc.	Warranty	12 Months unless specified otherwise
Origin	China		

China Shell shape propeller:

The shell shape propeller is a propeller of high thrust high efficiency energy saving. The high efficiency comes from the fact that its blades have two-way concave paraboloid which differs from the common propeller helicoids. The biggest performance characteristic is that the thrust increases about 20% with promising sailing speed. Therefore it is especially suitable for trawlers and tugboats which are not equipped with nozzle. This performance of shell-shape propeller has been confirmed by tests and used in many trawlers.
