Origin	China		

China Single arm rotary boat&raft davit(with crane):

The Single Arm Slewing Davit is a free-standing, deck-mounted davit consisting of a davit arm, column and electric winch

Manual slewing type and hydraulic slewing type are both available

Easy to operate

For the hydraulic slewing type davit, slewing out the fully manned rescue boat from its stowed position into launch position is done by means of the accumulated power obtained from a self-contained hydraulic power pack unit.

Other sizes/dimensions available on request
