General Description:

It features novel design,easy to install,it is used to measure the liquid level of low viscosity medium.

Main Technical Specification:

Model	Max working pressure	Working Temperature	Suitable medium	Conenction type
-------	----------------------	---------------------	-----------------	-----------------

ULG	0.2Mpa	0~100℃	Oil,water	Welded type(H type) Flange type(F)CB/T 46-2007 DN20 PN16
-----	--------	--------	-----------	---

Product Characteristic: when the glass tube breaks accidentally, the inside valve can close automatically without liquid leakage.
