WB-10 Marine Water Boiler

Product introduction:

1. The shell adopts stainless steel, durable;
2. The full automation, convenient use;
3. The multi box structure, the cold water tank is arranged independently, separation of raw water and boiling water completely;
4. We provided water power device, the effective protection of the electric heating tube;
5. After the special treatment if the heating tube is thickened, with longer life;
6. The overall use of foaming technology, heat preservation time;
7. It can install the bracket and the base, flexible use.
