Technical Specifications

Category	Sewage Treatment Plant	Model / SKU	WCBx-150C-Big-150Persons-Seires-Biochemical-Domestic-Sewage-Treatment-Plant
Standard	CB	Weight / Size	Therefore, compared with similar products, it has the characteristics of small size, light weight, compact structure, strong sterilization ability, and no secondary pollution.
Certificate	ABS, LR, BV, DNVGL, NK, KR, IRS, RMRS, CCS	Warranty	12 Months unless specified otherwise
Origin	China		

WCBx-150C Big 150Persons Seires Biochemical Domestic Sewage Treatment Plant

The WCBx-C series domestic sewage treatment device adopts a combination of contact oxidation and ultraviolet disinfection and sterilization methods to treat domestic sewage from places such as ship toilets. This product has optimized the design of a biochemical reactor and adopted ultraviolet sterilization. Therefore, compared with similar products, it has the characteristics of small size, light weight, compact structure, strong sterilization ability, and no secondary pollution. The discharged water treated by the device meets the international discharge standards and complies with the requirements of Resolution MEPC. 227 (64) of the International Maritime Organization's Environmental Protection Committee and international waste liquid discharge standards
