■ Main Technical Specification

China WD-2 Air Horn:

WD-2 Air Horn(Automatic Fog Control Siren) is the sound signal equipment of ship. When ship sails in fog, it has bad sight. To avoid collision and ensure safe sailing, ship must raise fog signal. This fog siren can raise both audible signal and light signal specified in the Convention on the International Regulation for Preventing Collisions at Sea, 1972. In fog, the labor strength can be reduced by it. This fog siren can electrically and manually raise siren of any rhythm and light signal.

Main Technical Specification

Product name	Type	Specification	(V)	(MPa)	Model for controlling siren	Length of ship	Sound level dB	Center frequency	Audibility range
Fog siren for ship	WD-2	One WD-2 electric solenoid valve fog siren, charged heating	Voltage (V)	Pressure (MPa)	Automaticall y electrically, manually	75~200 meters	138	160	1.5 sea miles

Quantity Guarantee: 12Months.
