Accessories for Windlass

Handle

Spare clutch handle for all models. With a wrench you can maintenance your windlass easily. It allows you to squeeze the release lever and pull to unlock in one quick, easy motion. To lock in, simply squeeze and insert.

Hand-Switch 01

An easily installed watertite handheld control. Completely maintenance free with a 2 m cable. The hand-swich is only used to DC motor.

Hand-Switch 02 AC

An easily installed watertite handheld control. Completely maintenance free with a 2 m cable. The hand-swich is only used to two-phase A.C. motor.

Hand-Switch 03 AC

An easily installed watertite handheld control. Completely maintenance free with a 2 m cable. The hand-swich is only used to three-phase AC motor.

Foot-Switch

UP & DOWN switch with a safety cover to prevent accidental push button operation. Usually mounted on deck near the anchor windlass. Sold in pair.

Control Box

Operates anchor windlass system from 400 to 1600 watts 12 & 24 volts. The control boxes are reliable and compact in size. The external connections on the control boxes make them very easy to install.

Remote Control

With a wireless remote control installed you will have full control of windlass wherever you are on board. The control consists of a transmitter and a receiver.
