- YZL50C Completely Automatic Lubricating Oil Filter Technical Parameters:

YZL50C Completely Automatic Lubricating Oil Filter

Features:
Fully automatic strainer: it's applicable for filtering lubricant,fuel oil and heavy oil,with an operation temperature designed as I T≤85°C. Range of filtering precision available for option is designed between40-400 mesh/inch. Flow :

40-80M3/H.
Characteristics:

- 1.It is driven by hydraulic motor and wash continuously using self filtered oil medium.
- 2.The installing and operationg is very convenient, safe and liable. it's driving does not need power or compressed air.
- 3.Continuous auto backwashing to ensure higher filter precision.
