## ZTP128 Marine Disinfection Cabinet

1. Pure stainless steel housing, durable
2. Far-infrared heating to high temperature disinfection above 120°C, killing rate of Escherichia coli and Staphylococcus aureus is more than 99%, negative reaction to the destruction of hepatitis B surface antigen (HBsAg), no side effects to human body
3. Accurate and reliable temperature control, excellent performance, and over-temperature protection, safe and reliable
4. Equipped with stainless steel adjustable feet for easy installation on board
