

## Nylon rope

Nylon rope, also known as polyamide rope, is well known and has gained the widest acceptance of the synthetic fibre ropes.

The rope has the ability to return to its original length after being stretched.

Application:

Ideal for use as lifting rope, towing hawsers, surge lines, mountain climbing ropes, safety lines, boat falls, drop hammer ropes, mooring rope, fishing ropes and industrial slings.

Some properties of nylon ropes are:

Light weight, excellent elasticity and tensile recovery, superior absorption of impact and shock loads, good flexibility, good sunlight and weather resistance, high melting point.

Good abrasion resistance, resistant to oil and most chemicals. Good resistance to weathering.

Approval: ABS, DNV, BV, GL, LR, CCS etc.

Size	Any size on customers' request, The main specification is between 3mm and 146mm for your option.
Color	Red, green, yellow, pink, black almost 30 colors for selection etc, or on customers' request.
Accessories	Metal Clip, Metal Harb, plastic hook, metal buckle, plastic buckle ect. , can be made on customers' request.
Packing	500pcs/Pag, packing with spool ,or Packing as Clients Demands.
